Saanich Neighborhood Playground Programs
Parks and Rec Department

My name is David Jackson.

I am the Program Technician for the *Saanich Neighborhood Playground Programs* this summer; commonly referred to as SNPP. SNPP, a not-for profit branch of the City of Saanich, is dedicated to serving local neighborhoods by providing universally low-cost options for families so that all kids have the chance to have healthy outside-play-time over the summer. You have probably seen these kids playing in the local parks over the years.

The majority of the participants of SNPP come from our local schools and we wanted to know if you were interested in adding a little 2x2 block add into your year-end newsletter. I have attached four photos that you could choose from.

I hope that together we can help get kids outside and having fun this summer.

Should you have any questions please feel free to contact me.

Thank you,

David Jackson
